Our Director

Mrs. Babita Singh has more than 7 YEARS of experience in Administrative, Business Operation, Banking & Cash Flow Management in Renewable Energy Sector. She has been able to showcase her great entrepreneurial spirit and skills by successfully handling the day to day business activities of GROUP SURYA.

**BABITA SINGH
(DIRECTOR)**

**Heads the accounts and
administration of the group
firms.**

Our Managing Director

Mr. Kamlesh Kumar Singh has a vast 30 YEARS of corporate experience in serving reputed Multinational Corporations like TATA Motors, LML Limited, Yamaha Motors India Pvt Ltd, Max New York Life Insurance Limited, Reliance Communications Limited and TATA Teleservices Limited.

Mr. Kamlesh Kumar Singh started the business of EPCM through proprietorship firm M/s Surya International in January 2012 and then with each passing year, growth multifold in revenue and achievements in different projects

KAMLESH KUMAR SINGH
(MANAGING DIRECTOR)
Heads all the group concerns
and manages Finance of the
group.

WHO WE ARE →

- ❖ We are working towards a goal of sustainable green world through solar EPC and Manufacturing in the field of clean renewable energy and water solution.
- ❖ We are providing Solar based energy, lighting, clean water and livelihood solution for rural pocket of India.
- ❖ Started operation with only one person in the year 2012 in solar sector and then forayed into water treatment and manufacturing sector and now we are a strong family of 300 people.

Our Core Values.....

MISSION

Delivering quality works and services in time to gain customer reliability and lead the market by adopting innovative technologies through sustainable management.

VISION

To be the global leading EPCM giant providing solar and water management solutions for a better future.

VALUE

To drive towards excellence with commitment, integrity and fair practice to deliver maximum customer satisfaction through application of empowered creativity & innovation towards enriching the social lives.

WHAT WE DO (in EPC)

Leading EPC organization who works and developed more than 100MW of solar power plants.

We are also into the business of water treatment, sewerage treatment and effluent treatment plant.

We have manufactured and supplied iron, fluoride, arsenic free clean drinking water to more than 2500 villages in various states like Bihar, Jharkhand, Punjab, Kerala, Odisha, Assam etc.

We have installed more than 2000 EV chargers for HPCL and IOCL in PAN India.

WHAT WE DO (in Manufacturing)

- We are into the manufacturing of FRP Vessel, Li Ion Battery Pack, Solar LED Luminary, Polymer recycling granules, Plastic water tank, PVC pipe and Metal fabrication.
- We are also manufacturer of Iron, Fluoride and arsenic removal plants certified by CSIR Bhubaneswar.
- We had already manufactured electrodes with aluminum and Indium compounds which were highly long-lasting in association with CSIR Karaikudi for water treatment plant for removal of fluoride through ELECTROLYSIS.
- Our state of the art FRP vessels are being developed by our in-house R&D team. We have also developed CNC machine for filament winding which has been used in FRP vessels (First time in India by any Company).
- We have manufactured and sold more than 25000 Li ion battery packs in just 1.5 years. Surya is also into the polymer recycling business. We are procuring scrap plastic and recycling them into powders and granules. Supplying to HDPE pipe manufacturers, water tank manufacturers, packing industries and drip irrigation pipe.
- We are also operating a metal fabrication unit for manufacturing of vessels, structure, pole etc.

MANUFACTURING INFRASTRUCTURE

- Hi-tech enabled manufacturing facilities with latest machineries and equipments in the following locations:

- ❑ FRP Vessel, Recycled Polymer Granules, Metal Fabrication Unit – **RIICO, Industrial Area, Ghilhot**
- ❑ Water Tank – **Gaya & Katihar, Bihar**
- ❑ HDPE & PVC Pipe – **Coimbatore, Tamil Nadu**
- ❑ Solar Module, Li ion Batteries, Solar Grid Tied Inverter – **Bhubaneswar, Odisha**

Ghilhot

- FRP Vessel
- Recycled Polymer Granules
- Metal Fabrication Unit

Bihar

- Li-Ion Battery Pack
- Water Tank

Odisha

- Solar Module
- Li ion Batteries
- Solar Grid Tied Inverters

Tamil Nadu

- PVC Pipes
- HDPE Pipes

GROWTH PATH AND GROWTH PLAN

- Mr. Kamlesh Kumar Singh founder of Surya Group started his business journey with 1.5 lakh of capital and currently the group net worth is more than 60 Cores in just 9 years.
- Surya has achieved remarkable growth rate of 50% in last financial year despite the chaos and disturbance created by covid-19 pandemic. But this year the growth rate will be flat due to adverse effects of covid-19.
- From inception till 2019 we have grown brilliantly with 100% YOY growth.
- Started with 1 employee in 2012 and now we are having 300 employees in the current year.

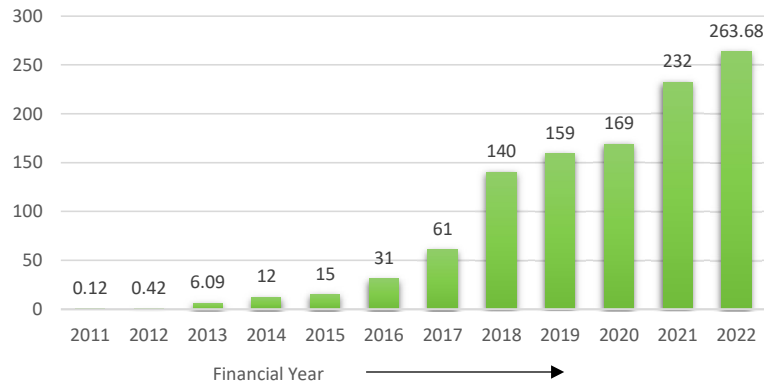

ACHIEVEMENTS

- We have executed 100 MW+ solar projects.
- We have supplied, installed and commissioned 250+ MLD water treatment plant which is supplying clean water to more than 2500 villages.
- We have installed and commissioned 40000+ street light and 4000+ solar water pumps as livelihood micro irrigation project.
- Having own rooftop solar power plant of 15 MW installed in various government buildings like IIT Patna, NIT, AAI, BSNL, ICAR and AG Office etc. under RESCO mode, another 5MW of Solar Plant in pipeline.
- CSIR Bhubaneswar certification for Arsenic Removal Media , Iron Removal MnO_2 based Media and Fluoride Removal Resin.
- Our two group companies are BBB rated from CRISIL.
- Our first Factory was set up in Bihar at Katihar and second factory at Gaya where we manufacture Water Tanks which ultimately used for the Water Projects that we are awarded with.
- Then we expanded our arms we have successfully set up new factories in Coimbatore and Ghiloth where the manufacturing of FRP Vessel, Recycled Polymer Granules & Metal Fabrication Unit and HDPE & PVC Pipe respectively.
- Now we can proudly state that we have successfully installed another factory in Bhubaneswar, Odisha where we are going to manufacture Solar Module, Li ion Batteries & Solar Grid Tied Inverter.

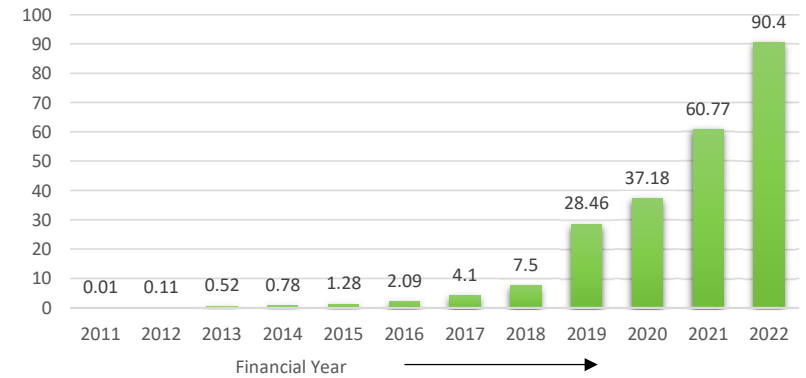

FINANCIAL STABILITY

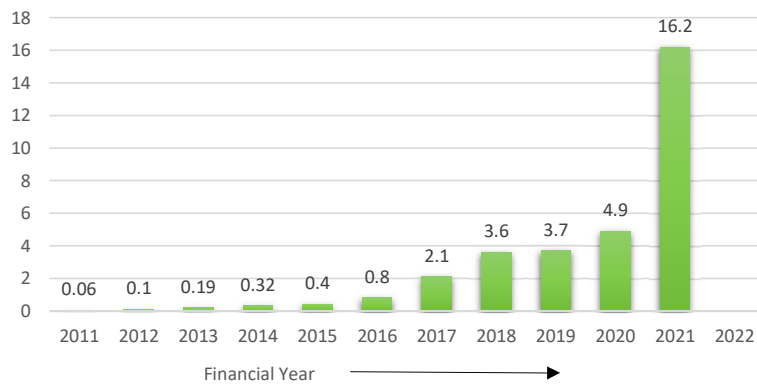

Turnover (in crores)

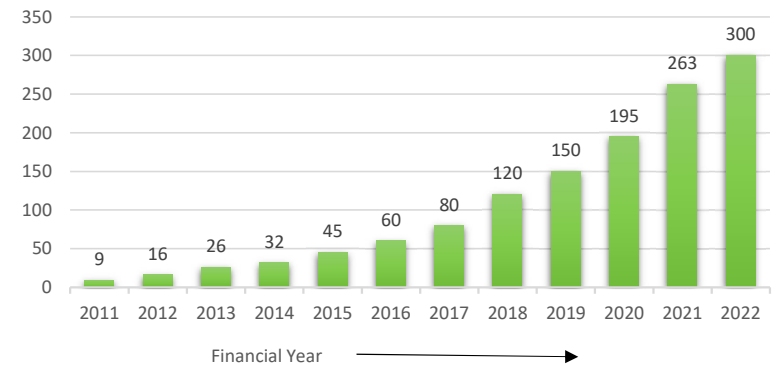

Net Worth (in Crores)

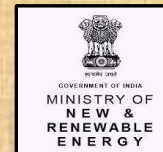

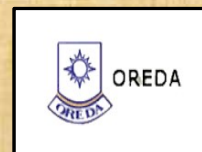

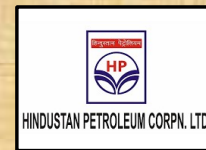

PAT (in Crores)

Employees (in Nos)

OUR CLIENT

Our Projects

- We Group Surya have completed some of the projects in the field of Solar and Water on PAN India basis.
- Snapshot of the projects are attached below for your reference.

Rooftop Solar Power Plant in the state of Tripura.
Capacity: 3MW
Mode: RESCO
Location: TRED A

Rooftop Solar Power Plant in the state of Bihar.
Capacity: 2.5MW
Mode: RESCO
Location: IIT Patna

Solar Water Pump in the state of Odisha
Capacity: 2HP
Location: Koraput

Solar based Water Treatment Plant
Capacity: 0.5HP
Location: Assam

Latitude: 26.607403
Longitude: 94.090235
Elevation: 60.54+257 m
Accuracy: 189.0 m
Time: 10-03-2022 12:29
Note: dist. jorhat
block. tikabar
point..ts. sign board installation

Powered by NoteCam

Solar based Water Irrigation Project in the state of Assam
Capacity: 3HP
Location: Jorhat

Sewage Treatment Plant in the state of Jharkhand
Capacity: 0.35 MLD
Location: Bhatgaon

Water Treatment Plant in the state of Punjab
Capacity: 1.5 MLD
Location: Jalhandar

Rural Water Supply Scheme in the state of Odisha
Capacity: 1HP
Location: Govt. Public Higher School, Kendrapada

Latitude: 20.340588
 Longitude: 86.729516
 Elevation: 52.95±3 m
 Accuracy: 3.2 m
 Time: 03-28-2023 13:47
 Note: Block - Mahakalpada
 Gp - Batighar
 vill - Barkoli khala location - Near Ashok Maity

Thank You
